

Hohenstein Quality Label

“Tested Pet Supplies”

Goal

The Hohenstein quality label "tested pet supplies" defines the requirements for products, product-specific claims and properties. The label ensures that legal requirements and defined functional tests are guaranteed.

Your benefits

- Ensuring legal conformity (general marketability)
- Ensuring product quality and durability
- Safety against undesirable residues of harmful substances
- Clear product information
- Marketing tool and clear differentiation from competition
- Verification of product properties

Description

The label is used exclusively for non-electric pet supplies. This includes, for example, pet toys, dog cushions, cat or horse blankets, etc.

Tests & Standards

With the Hohenstein Quality Label "tested pet supplies", you benefit from our long-standing expertise and can profitably advertise the neutrally tested quality of your products.

The standard tests consist of textile technology tests (processing, dimensional change, light and friction fastness, etc.), mechanical safety tests (pull-off forces, load tests, sharp corners and edges, etc.), safety tests based on the toy standard, labelling tests in accordance with the Product Safety Act and tests for harmful substances in accordance with legal requirements (not applicable if the OEKO-TEX[®] STANDARD 100 certificate is valid)*

The quality label can be flexibly extended:

- Chewing resistance
- Scratch resistance
- Resistance to denting
- Washability
- Outdoor suitability
- UV protection
- Absorption capacity
- Waterproofness
- Antibacterial effectiveness
- Animal hair resistance
- Water repellency
- Air permeability

Note: Make your pet supplies sustainable! Get in touch with us.

*Awarding is only possible if a valid OEKO-TEX[®] STANDARD 100 certificate exists.

Test samples requirements

Material:

The amount may vary depending on the product.

Test duration:

10 working days after detailed coordination of technical data and sample receipt.

Label & Certificate

The validity period of the labels is 1 year. To extend the validity after the first and second year, a product equality certificate must be submitted. This checks again whether the requirements of the label are met. There is no new label usage fee.
